| Progress of Project | <p>Educational aids " Studies in history, culture and economy of Korea" was prepared by Bronislav Lee and Lidia Shim in Uzbek and Russian languages. The book includes 406 pages in Uzbek language and 476 pages in Russian language, total volume of the book is equal to 882 pages./</p> <p>Uzbekistan became independent 25 years ago and the first time the book on history, culture and economy of Korea is published in state (Uzbek) language. Material of this book is matured during 15 years when authors lectured at Tashkent state pedagogical university named after Nizami on country study(states of Korean Peninsula), on actual problems of Korean studies, on intercultural communication of Koreans, on world Korean communities, on Korean food culture, on different aspects of Korean culture, on Korean business culture and business Korean language .In any country all it is connected in real life: language, culture, economy. That is why in this aids under systematic academic outline of history we attempted to connect all three aspects: history, culture, economy.</p> <p>We used in broad sense all stocks in Russian, English and Korean languages.</p> <p>The content of this aids is appropriate to working programs on such subjects as History of Korea at universities in Uzbekistan.</p> <p>The textbook includes positions of authors on some problems of Korean history. Peculiarity of this book is giving material via pictures,,via separate historical facts, via commentaries, which without detail explanations , violating possible logic sequence, more and better speaking about history and culture of this country(Attachments).</p> |
